

Animal health requirements applicable to non-commercial movement of pet animals.

A. VETERINARY LEGISLATION

Veterinary legislation regulating the non-commercial pet movement comprises of:

1. Regulation (EU) **576/2013** of the European Parliament and of the Council, as amended and in force , according to which common rules of animal health requirements are being established for the non commercial movement of pet animals between Member States, as well as for those pet animals coming from third countries :

576-2013en.pdf

2. Commission Regulation (EU) **577/2013** on the model identification documents for the non-commercial movement of dogs, cats and ferrets, the establishment of lists of territories and third countries and the format, layout and language requirements of the declarations attesting compliance with certain conditions provided for in Regulation (EU) No 576/2013:

577-2013.pdf

3. Commission Implementing Regulation (EU) **1219/2014** amending Annex II to Implementing Regulation (EU) No 577/2013 as regards the list of territories and third countries:

1219-2014.pdf

4. Commission Delegated Regulation (EU) **1152/2011** as regards preventive health measures for the control of *Echinococcus multilocularis* infection in dogs:

1152-2011.pdf

5. Commission Implementing Decision (EU) **519/2013** laying down the list of territories and third countries authorised for imports of dogs, cats and ferrets and the model health certificate for such imports:

519-2013.pdf

6. Commission Decision (EC) **2006/146** on certain protection measures with regard to certain fruit bats, dogs and cats coming from Malaysia (Peninsula) and Australia:

2006-146.pdf

7. Commission Implementing Decision (EU) **2013/520** repealing Implementing Decision 2011/874/EU:

2013-520.pdf

8. Commission Regulation (EU) **31/2014** repealing Decisions 2004/301/EC, 2004/539/EC and Regulation (EU) No 388/2010:

31-2014.pdf

9. Commission Decision **2007/25/EC** as it is amended and in force, establishes a model health certificate for pet birds originating from third countries:

2007-25.pdf

10. Council Decision **2000/258/EC** designating a specific institute responsible for establishing the criteria necessary for standardising the serological tests to monitor the effectiveness of rabies vaccines

11. Law **4039/2012** (Government Gazette 15 A) related to pet and stray animals and their protection from exploitation or use for profit."

B. TERMS

“Pet animals”: As a pet, according to the above legislation means:

- a) dogs (*Canis lupus familiaris*),
- b) cat (*Felis silvestris catus*),
- c) ferrets (family of mammals comprising the species of ferrets, weasels, ermines, zibelines),
- d) spiders and other invertebrates (except bees, molluscs and crustaceans),
- e), ornamental tropical fish,
- f) amphibians, reptiles,
- g) all bird species (except those specified in Article 2 of Directive 2009/158,
- h) rodents and rabbits (except those destined for food production and are defined as "lagomorphs" to Annex I of Regulation (EC) No. 853/2004)

which accompany their owner or an authorized person during the non-commercial movement, and which remains for the duration of such non-commercial movement under the responsibility of the owner or the authorised person and are not intended to be sold or transferred to another owner.

- A) According to recital (10) of Regulation (EU) No. 576/2013, on sufficiently justified and substantiated cases, the pet animal should be considered to accompany its owner or the authorized (natural) person even if the non-commercial movement of the pet may take place five days earlier or later than the movement of the owner or the authorized person, or , or takes place in a different physical location than that occupied by the owner or by the authorised person with a different means of transport than that occupied by the owner or by the authorised person. In this case, the owner or the authorized person must demonstrate evidence to the competent authorities (i.e. ticket or boarding card) to prove that the movement of the animal is part of his own movement.
- B) Following the above, provided that the animals are accompanied by a natural person (authorized) other than the owner ,in addition to the passport, the natural person must have an authorisation in writing from the owner to carry out the non-commercial movement of the pet animal on behalf of the owner and also demonstrate that the movement of the animal is part of the owner's movement (i.e. a copy of the boarding pass or plane ticket of the owner to show that it had receded or followed by the movement of the owner). This declaration applies to the non-commercial movements of pets both between Member States and third countries. In addition, these animals are not intended in any case, to be sold or transferred to another owner during their movement.

If the above requirements are not met, the movements of the animals (dogs, cats and ferrets) fall under the provisions of Directive 92/65 / EEC.

2. "**Owner**": a natural person indicated as the owner in the identification document

3. "**Authorized person**" means any natural person who has authorisation in writing from the owner to carry out the non-commercial movement of the pet animal on behalf of the owner.

4. "**Movement**": any pet animal movement which does not have as its aim either the sale of or the transfer of ownership of a pet animal

- a) in the Greek Territory
- b) from Greece to other Member States and vice versa,
- c) entry or re-entry from a third country to the Greek territory

5. "**Passport**": The document enabling the clear identification of dogs, cats and ferrets, whose owners are residents of the European Union or third countries included in Part 1 of Annex II to Implementing

Regulation (EU) No. 577/2013. Passports must comply with the requirements established in Implementing Regulation (EU) No. 577/2013 of the EU Commission, completed and sealed in accordance with par. 5 of article 4 of N.4039 / 2012, as amended and in force. Passports are signed by the owner and are not transferable to a third person.

6. "**Maximum number of pets**": The maximum number of pet animals of the species listed in Part A of Annex I which may accompany the owner or an authorized person during a single non-commercial movement shall not exceed five (5).

By way of derogation, the maximum number of pet animals of the species listed in Part A of Annex I may exceed five if certain conditions are fulfilled: (see section D., Paragraph 2a and 4a).

7. "**Veterinary certificate**": the official document, which must accompany pets (dogs, cats and ferrets) during their entry into the Greek territory when they come from a third country or territory not included in Part 1 of Annex II to Implementing Regulation (EU) No. 577/2013 and are accompanied by the owner or the authorized natural person. This must comply with the model specified in Annex IV of the Implementing Regulation (EU) No. 577/2013.

C. GENERAL PROVISIONS

1. *Electronical Identification System (microchip)*

a) Since February 2, 2012 and onwards, according to par. 1 of Article 5 and par. 4 of Article 9 of Law. 4039 / 2012, amended by Article 46 of Law. 4235/2014, the owner of a pet animal shall ensure that its marking and registration takes place before the animal leaves the place of birth, and in any case within two months from its birth or within a month from its finding or acquisition. The municipalities shall ensure the marking and registration of the stray animals. Electronic identification should be done according to standard ISO11784 and applying HDX or FDX-B, which can be read by a reading device compatible with standard ISO 11785 (par.4, Article 4 of Law 4039 / 2012, as amended).

The certification details and all matters related to the organization and operation of the National electronic database, are established in Ministerial Decision No. 1544 / 07.22.2015 (Issue B). In accordance with paragraph 2 of Article 22 of National Law 4039 / 2012, as amended and in force, where it is indicated electronic identification of pets, it refers to the identification of dogs and cats.

b) . Dogs, cats and ferrets traveling from Greece to the territory of another Member States shall be marked by the implantation of a transponder according to the standard ISO11784 and applying HDX or FDX-B, which can read by a reading device compatible with standard ISO 11785 or by a clearly readable tattoo applied before the 3rd of July 2011.

Where the transponder referred to in the first subparagraph does not comply with the ISO standards previously described, the owner or the authorised person shall provide the necessary means for reading that transponder at the time of any verification or checks.

2. *Vaccination against rabies*

The rabies vaccination and revaccination shall take place in accordance with Annex III of Reg. (EC) 576/2013.

Attention: Due to the national program against rabies, the rabies vaccination is mandatory for both dogs and cats (Ministerial Decision 331/0301-25/-/2013, National Gazette 198B, as amended and in force).

3. *Rabies antigen check*

The rabies antibody titration test is carried out on a blood sample taken at least 30 days after the rabies vaccination and performed in an approved laboratory (Member States or third countries) included in the attached table.

The level of neutralising antibody to rabies virus in serum must be equal to or greater than 0,5 IU/ml (Annex IV of Regulation (EC) No. 576/2013).

D. PET ANIMAL MOVEMENTS

1. Within the Greek territory

A. **The owners or holders of the dogs** traveling accompanied by their animal, are required to carry with them the health book or the passport of the animal. They must submit it, if this is requested, to any competent authority. When the pet has a passport, no health book is required.

B. The movements of stray animals carried out by rescue organizations to and from veterinary clinics or shelters within the Greek Territory, **are excluded** from this requirement and the requirement of par. 4.a. under "C GENERAL PROVISIONS" of this document.

C. Animals being transported by public transport

- Without prejudice to more favorable provisions of the Highway Code or the Regulations of public means of transport, the transport of small pets is allowed in all road, rail and fixed route public transportation as well as in taxis and passenger ships, where the animals are placed in a safe transport cage and accompanied by the owner or by the holder.

A small pet animal is meant a pet animal whose weight does not exceed ten (10kg) kilograms.

- Assistance dogs, bearing the leash handle, can be transported without a transport cage and without a muzzle, regardless their size.

- Passenger ships must have clean cages for the transport of large pet animals in order to ensure the protection of pets from the adverse weather conditions.

ATTENTION: In accordance with the Ministerial Dec. No. 331 / 10301-25 / 01/2013 (Government Gazette 198, Issue B) with respect to the Surveillance Anti-Rabies Program in Greece, as last amended by Ministerial Dec. No. 3941/120925/07/10 / 2013 (Government Gazette 2642, Issue B), dogs and cats can move within the territory of Greece **ONLY** if they are vaccinated against rabies and as a consequence not before the age of 12 weeks and not before 21 days after rabies vaccination.

2. Movements from Greece to other Member States of the European Union

a) Movements of dogs, cats and ferrets at least 12 weeks old or older (12 weeks is the minimum age at which the anti-rabies vaccination is administered):

-The animals must be identified by an electronic identification system or a clearly readable tattoo applied before 3 July 2011.

- Be accompanied by the passport laid down in the Implementing Regulation (EU) No. 577/2013, issued by veterinarians certified and legally practicing the veterinary profession in Greece.

- Do not exceed 5 in number, not intended for sale or transfer of ownership of the animal and be accompanied by the owner or an authorized person. In any other case, the movement falls under the provisions of Directive 92/65/ EEC (animal health requirements governing trade and imports).

Exception: The maximum number of pet animals of the species listed in Part A of Annex I may exceed five (5), if all the following conditions are fulfilled:

a) the non-commercial movement of pet animals is for the purposes of participating in competitions, exhibitions or sporting events, or in training for such events

b) the owner or the authorised person submits written evidence that the pet animals are registered either to attend an event referred to in the previous point (a), or with an association organising such events

c) the pet animals are more than six months old

b) Movements of dogs, cats and ferrets under 12 weeks and between 12 and 16 weeks:

For the movement of animals:

a) either less than 12 weeks old that have not received an anti-rabies vaccination or

b) between 12 and 16 weeks that have received an anti-rabies vaccination, but do not yet meet the validity requirements referred to in point 2(e) of Annex III. of Regulation (EU) No. 576/2013 an authorization of the Member State of destination is granted only if:

-either the owner or the authorised person provides a signed declaration that from birth until the time of the non-commercial movement the pet animals have had no contact with wild animals of species susceptible to rabies or

- the pet animals are accompanied by their mother, on whom they still depend, and from the identification document accompanying their mother it can be established that, before their birth, the mother received an anti-rabies vaccination which complied with the validity requirements set out in Annex of Regulation (EU) No. 576/2013

Travelers must be informed in due time of relevant information by the competent authorities of the Member State of destination, as some Member States do not make use of this derogation.

c) Non-commercial movement of other pet animals covered by Regulation no. (EC) 576/2013:

For movements of rodents, rabbits, reptiles, amphibians, ornamental fish, spiders and other invertebrates (except bees and crustaceans) national rules might be in place. In order to avoid unnecessary inconvenience, travelers must be informed accordingly in due time.

3. Movements from Greece to the United Kingdom, Ireland, Finland, Malta and Norway

- Provisions of Section D-2 must be respected.

- In addition, dogs traveling for non-commercial purposes and entering the territory of the above Member States must be treated for early and mature forms of intestinal parasite *Echinococcus multilocularis*, within a period of 24 to 120 hours before the scheduled time of admission in those Member States.

The treatment is administered by a veterinarian and certified in the respective field of the pet passport.

4. Movements from other Member States to Greece

a) ***Movements of dogs, cats, and ferrets over 12 weeks:***

- Animals should be identified electronically (transponder) or by a clearly readable tattoo applied before 3 July 2011

- be accompanied by the passport laid down in Commission Implementing Regulation (EU) No. 577/2013 which verifies the effect of vaccination or revaccination against rabies.

- The animals must not exceed 5 in number, not intended for sale or transfer of ownership and be accompanied by the owner or an authorized person. In any other case, the movement falls under the provisions of Directive 92/65/EEC (animal health requirements governing trade and imports).

Note: For animals involved in Competitions, shows or sporting events, the derogation of point D2 applies.

- There is no ban for specific breeds (dogs-cats)

ATTENTION: Greece does NOT accept the entry in its territory of young animals (animals <12 weeks and between 12 and 16 weeks)

b) *Movements for non-commercial purposes of other pet animals:*

Until the relevant Community rules are laid down, movement of amphibians, ornamental fish, spiders and other invertebrates (except bees and crustaceans) is free, not subject to health restrictions and not required to be accompanied by veterinary certificates.

- With reserve to possible health restrictions, movements of **birds, rodents, rabbits** and **reptiles** must be accompanied by a veterinary health declaration in accordance with the following model:

The animals referred to above may be required to be accompanied by a CITES certificate. The owner is invited to contact the CITES competent authorities before the trip.

5. Movement from EEA countries (European Economic Area)

Movements of pet animals from Andorra, Switzerland, the Faroe Islands, Gibraltar, Greenland, Iceland, Liechtenstein, Monaco, Norway, San Marino and the Vatican City to Greece are governed by the rules mentioned in the previous point D4

E. PET ANIMAL MOVEMENT FROM THIRD COUNTRIES

The pet animals' entry into the Greek territory is allowed if the following requirements are met:

1. Greece: direct destination

The entry of pet animals is **prohibited** at entry points where no authorized Border Inspection Posts, included in the list of Commission Decision 2009/821/EC, operate.

The entry of pet animals **is allowed:**

-Through authorized Border Inspection Posts, regardless **whether they are authorized or not for the introduction of live animals (see below the list of all BIPs).**

-Through island entry points included in Commission Decision 94/641/EC.

List of island entry points

1. Rhodes port and airport
2. Kos port and airport
3. Kalimnos
4. Mitilini port and airport
5. Mirina (Limnos) port and airport
6. Chios port and airport
7. Samos port and airport
8. Ermoupolis (Syros)
9. Argostoli port
10. Iraklio (Crete) port and airport
11. Chania (Crete) port and airport
12. Corfu port and airport

Exception: Member States may authorise registered military or search-and-rescue dogs to move through a point of entry other than a travellers' point of entry provided that:

- a) the owner or the authorised person has applied in advance for a permit and the Member State has granted such a permit and
- b) the dogs undergo compliance checks in accordance with Article 34(2) of Regulation (EU) n. 576/2013 at a place designated by the competent authority for that purpose and in accordance with the arrangements set out in the permit referred to in point (a) of this paragraph

The Veterinary authorities of the above-mentioned entry-points are obliged to:

-Have at their disposal specific space for keeping the animals, where appropriate, and have at their disposal a transponder ISO 11785.

- keeps records of the total number of checks that have been carried out and of instances of non-compliance revealed during those checks

- To carry out systematic documentary and identity checks at designated entry points for pets accompanying their owner during non-commercial movements

-For the purpose of further movement in other Member States are required to record the checks in the identification document so that the date of the checks can be used to determine the validity of the identification document

2. Entry of dogs, cats and ferrets older than 12 weeks of age

The animals shall:

- a) bear an electronic identification system (microchip) in compliance with ISO standard 11784 and of HDX or FDX-B technology, which can be read by a reading device compatible with standard ISO 11785 or by a clearly readable tattoo applied before 3 July 2011.

In case the electronic identification of the animal does not comply with the above standard, the owner of the animal must provide the veterinarian with the necessary means for reading the transponder at the time of the inspection.

- b) Have undergone an anti-rabies vaccination or revaccination, according to Annex III of Reg. (EC) 576/2013 that must be in force

c) have undergone a rabies antibody titration test at least 30 days after the date of the rabies vaccination and not less than three months before the date of: a) the non-commercial movement from a territory or a third country other than those listed in the implementing acts adopted pursuant to Article 13(1) or b) transit through such a territory or a third country where the conditions laid down in point (c) of Article 12 are not fulfilled, or c) before the pet animal left the Union for movement to or transit through a territory or a third country other than those listed pursuant to Article 13(1). The test must measure a level of neutralising antibody to rabies virus in serum equal to or greater than 0,5 IU/ml and must be performed in a laboratory approved in the Member States or third countries, in accordance with Article 3 of Decision 2000/258/EC (can be found in annex I or on the following webpage, respectively):

http://ec.europa.eu/food/animal/approved_establishments/other_laboratories_en.htm (For Member States)

http://ec.europa.eu/food/animal/liveanimals/pets/approval_en.htm (For Third Countries)

The test does not have to be renewed following a satisfactory result described previously, provided that the pet animal is revaccinated within the period of validity referred to in point 2(e) of Annex III of the previous vaccination **The antibody titration test is ONLY required for third countries not included in Part 2 of Annex II to Implementing Regulation (EU) No. 577/2013, as applicable (Annex II to this).**

- d) be accompanied by a passport if they come from third countries included in Part I of Annex II to Implementing Regulation (EU) No. 577/2013 as applicable (Annex III to this)
- e) in any other case, be accompanied by a veterinary certificate complying with Annex IV of the Implementing Regulation (EU) No. 577/2013 as indicated in A.2. of this circular (Annex VII to this).
- f) Certified copies of the results of the serological examination shall be attached to the certificate, when this is required.

- g) in all cases ,be accompanied by a written declaration in accordance with the model declaration set out in Part 3, Section A of the Implementing Regulation (EU) No. 577/2013, in compliance with Article 25 (3) of Regulation (EU) No . 577/2013 (Annex VI to this)
- h) If the pet animal transits through one of the territories or third countries other than those listed in Annex II to Commission Implementing Regulation (EU) No. 577/2013, and remains within the means of transport or within the perimeter of an international airport, it must **additionally** be accompanied by a written declaration, in conformity with the model laid down in Part 2, Annex I to Council Implementing Regulation (EU) No. 577/2013. (Annex V to this).
- i) does not exceed 5 in number.
The exception of last D.2.a. point on animals participating in competitions, exhibitions or sporting events is in force.
- j) There is no ban for specific breeds (dogs-cats)

3. Entry of dogs, cats and ferrets under 12 weeks of age

The entry into the Greek territory is not allowed for animals under the age of twelve (12) weeks and therefore not vaccinated against rabies or between 12 and 16 weeks that are vaccinated against rabies but do not yet meet the requirements of the rabies vaccination

4. Entry of other pet animals

a) Until Community rules are adopted, the entry of amphibians, ornamental fish, spiders and other invertebrates (except bees and crustaceans) is allowed without veterinary health restrictions and without requiring the submission of a veterinary certificate.

b) With reserve to possible animal health restrictions the entry of **reptiles, rodents and rabbits** is permitted, if they are accompanied by a veterinary declaration, in accordance with the model included in the previous point D.4.b)

c) **pet birds** (up to five animals in number maximum) must be accompanied by an original veterinary certificate, in accordance with the model laid down in Decision 2007/25 / EC as amended and in force.

The import of pet birds from third countries is only allowed:

- from certain third countries after an isolation period of 30 days under official supervision
- or after a 10 day isolation period and laboratory testing for avian influenza with negative results

• Pet birds to remain in quarantine in the territory of Greece are not accepted

d) Species listed in the previous points a), b) and c) may require a CITES certificate.

5. Entry into the territory of the EU having Greece as the final destination

Pet animals entering into Greece through the territory of another member-state should meet the health requirements of the above-mentioned points 2, 3 and 4.

6. Entry into Greece with destination other member-States

-Dogs, cats and ferrets older than twelve weeks arriving in Greece and destined to another Member State, must be accompanied by the certificate set out in Annex IV to Implementing Regulation (EU) No. 577/2013.

-If pets exceed 5 in number, the movement falls under the provisions of Directive 92/65/EEC and the animals must be accompanied by the certificate laid down in Implementing Decision 2013/519/EU.

- In any case, the animals shall be accompanied by a written declaration, in accordance with the model set out in Part 3, Section A of the Implementing Regulation (EU) No. 577/2013 in conformity with Article 25 (3) of Regulation (EU) No. 576/2013 (Annex VI of the present)

- Dogs, cats and ferrets less than twelve (12) weeks or between 12 and 16 weeks are subject to the requirements of the destination country. If the movement of the above mentioned animals (age <12 weeks or between 12 and 16 weeks) is allowed by the MS of destination, **in addition** the animal must be accompanied by a written declaration as it is laid down in Part 1 of Annex I, of Implementing Regulations (EU) No. 577 / 2013. (Annex IV of the present).

-If the pet animal transits through a territory or a third country not listed in Annex II of the Implementing Regulation (EU) No. 577/2013 as in force and remains within the means of transport or within the perimeter of an international airport, it shall be accompanied by a written declaration in conformity with the model laid down in part 2 of Annex I to Council Implementing Regulation (EU) No. 577/2013. (Annex V to this)

- Other types of pets are subject to the requirements of the destination country

7. Re-entry of animals coming from the EU

The re-entry of EU dogs, cats and ferrets is permitted in case they are accompanied by their passport and the vaccination protocol against rabies, as required by the manufacturing laboratory, has not been interrupted.

ATTENTION: The rabies antibody titration test must be carried out before the pet animal left the Union for movement to or transit through a territory or a third country which are NOT listed in Part 2 of Annex II to Regulation (EU) No. 577/2013 (Annex II to this) . The passport must confirm that a rabies antibody titration test was carried out with a favourable result before the date of movement.

If no rabies titration test has been carried out before the animal leaves the Community territory, the titration at an approved for this purpose laboratory (EU or third country) and wait three months from receipt of the sample. (Annex IV of Regulation (EC) No. 576/2013). is **MANDATORY** for the re-entry

If the above conditions are not satisfied, the entry of the animal into the country is not permitted

F. MOVEMENT OF PET ANIMALS FROM GREECE TO THIRD COUNTRIES

The movement of pet animals from Greece to non-EU countries is subject to the national provisions of each third country.

Travelers shall be informed accordingly beforehand from the competent authorities of the third country of destination or from the Embassies of the third countries of destination, in Greece.

The relevant information must be submitted to the veterinary competent authorities in order the last ones to provide with the necessary tests and the requested documentation

ATTENTION: The rabies antibody titration test must be carried out before the pet animal left the Union for movement to or transit through a territory or a third country other than those listed pursuant to Article 13(1) or (2); the identification document in the format provided for in Article 21(1) must confirm that a rabies antibody titration test was carried out with a favourable result before the date of movement.

G. VALIDITY OF THE VETERINARY CERTIFICATE FOR ANIMALS COMING FROM THIRD COUNTRIES

1. The veterinary certificate for non-commercial movements of dogs, cats and ferrets from third countries traveling within the Community territory is valid for 10 days from the date of issue by the official veterinarian until the date of the documentary and identity checks at the designated

Union travelers' point of entry and a total of four months from the date of issue or until the date of expiry of the vaccination against rabies, whichever date is earlier.

With this certificate and for the period of its validity, the pet can move freely between Member States, without the need for issuing an EU passport.

2. In case the certificate is issued and signed by an authorized veterinarian, the competent authority of the third country of dispatch must validate the certificate.

H. CONTROL PROCEDURES – PENALTIES

1. *Within the Greek territory:*

- The veterinary checks applicable within the Greek territory are laid down in parts B and D of Presidential Decree 420/1993 (A'179).

-Measures regarding the control procedures applicable to the identification, registration of animals and their owners, the welfare and the requirements during the movement, are carried out in accordance with the provisions of Law 4039/2012 as amended and in force

A) The Competent Authorities responsible for the confirmation of violations of Law 4039/2012 , are the authorities which identify these violations during their audit duties and ,in particular, the Municipal Police , the Forestry Services, the Customs, the Border Inspection Posts (BIP), the Coast Guard - Greek Coast Guard and the private security guards of the hunting organizations.

Upon detecting of the violation, it is certified on the spot by the competent authority the estimated administrative fine and a copy of the certificate of offense is sent to the veterinary authority of the competent Municipality and ,where this it is not established, to the Agricultural Development Office of the Municipality or to the Directorate of Rural Economy and Veterinary of the relevant Regional Unity, for the enforcement of the established fine.

B) Individual travelers who travel with their animals must present the identification document of the pet animal required under Regulation 576/2013 which demonstrates compliance with the requirements for such movement and make the pet animal available for the required checks .

2. *Movements from Greece to other Member States or EEA (European Economic Area):*

BIP official veterinarians shall provide assistance and deal with infringements referred to them by other authorities and bodies, regarding the non-commercial movement of pet animals

3. *Entry-points from third countries*

- a) The custom authorities and the border guards at the entry-points which are not authorized for the entry of pet animals **must not allow** their entrance into the Greek territory.

Custom authorities of the authorized entry-points shall cooperate with the competent veterinary authorities and send the animals for veterinary checks.

- b) B.I.Ps and the veterinary authorities in the authorized points of entry of the islands referred to in the Commission Decision 94/641/EC, must proceed to:

- The control of the accompanying documents,
- The identification of the animals,
- the eventual clinical examination of the animals
- to register all such imports and to regularly notify the central competent authority

If checks indicate that the animals do not meet the requested requirements, the competent authorities will decide:

- Either return the pet animal to its country or territory of dispatch or
- to isolate the pet animal under official control for the time necessary for it to comply with the conditions laid down in Chapter II or III of Regulation 576/2013 or
- as a last resort where its return is not possible or isolation is not practical, put the pet animal down in accordance with applicable national rules relating to the protection of pet animals at the time of killing.

The animals shall be accompanied by the **original** necessary veterinary documents, sealed properly as following:

Entry Permitted
Date.....
Name of the Veterinarian
.....
Signature.....
Stamp

Entry Prohibited
Date.....
Name of the Veterinarian
.....
Signature.....
Stamp

The print out of the above-mentioned stamp of the veterinarian must be of different color of the certification printing.

A copy of the original veterinary certificate must be kept in the files concerning the non-commercial movements of pet animals, **for three years**.

- c) In case animals exceed 5 in number or are not accompanied, whether they come from other Member States or third country, regardless the species, they are considered as a commercial dispatch and are therefore subject to control procedures laid down in the provisions of live animals imports.

PENALTIES

The prescribed penalties, in accordance with the Law 4235/2014 (GG 32 A), are applied.

VA	Vatican City State

ANNEX IV

Format and layout of the declaration referred to in point (a) of Article 7(2) and of Article 11(2) of Regulation (EU) No 576/2013

DECLARATION

I, the undersigned

..... (1)

[owner or natural person who has authorisation in writing from the owner to carry out the non-commercial movement of the pet animals on behalf of the owner (2)]

declare that from birth until the time of the non-commercial movement the following pet animals have had no contact with wild animals of species susceptible to rabies:

Transponder/tattoo (2) alphanumeric code	Passport/Animal health certificate (2) number

Place and date:

Signature:

(1) To be completed in block letters.

(2) Delete as appropriate.

ANNEX V

DECLARATION

I, the undersigned

..... (1)

[owner or natural person who has authorisation in writing from the owner to carry out the non-commercial movement of the pet animals on behalf of the owner (2)]

declare that, during the transit through one of the territories or third countries other than those listed in Annex II to Commission Implementing Regulation (EU) No 577/2013, the following pet animals have had no contact with animals of species susceptible to rabies and remain secure within a means of transport or within the perimeter of an international airport (2):

Transponder/tattoo (2) alphanumeric code	Animal health certificate number

Place and date:

Signature:

ANNEX VI

Written declaration referred to in Article 25(3) of Regulation (EU) No 576/2013

Section A

Model of declaration

I, the undersigned

.....
[owner or the natural person who has authorisation in writing from the owner to carry out the non-commercial movement on behalf of the owner ⁽¹⁾]

declare that the following pet animals are not subject to a movement that aims at their sale or a transfer of ownership and will accompany the owner or the natural person who has authorisation in writing from the owner to carry out the non-commercial movement on behalf of the owner ⁽¹⁾ within not more than five days of his movement.

Transponder/tattoo ⁽¹⁾ alphanumeric code	Animal health certificate number

During the non-commercial movement, the above animals will remain under the responsibility of

⁽¹⁾ *either* [the owner];

⁽¹⁾ *or* [the natural person who has authorisation in writing from the owner to carry out the non-commercial movement on behalf of the owner]

⁽¹⁾ *or* [the natural person designated by the carrier contracted to carry out the non-commercial movement on behalf of the owner: (*insert name of the carrier*)]

Place and date:

Signature of the owner or natural person who has authorisation in writing from the owner to carry out the non-commercial movement on behalf of the owner ⁽¹⁾:

⁽¹⁾ Delete as appropriate.

ANNEX VII

Model animal health certificate for the non-commercial movement into a Member State from a territory or third country of dogs, cats or ferrets in accordance with Article 5(1) and (2) of Regulation (EU) No 576/2013

COUNTRY:

Part II: Certification	II. Health information		II.a. Certificate reference No	II.b.
	I, the undersigned official veterinarian ⁽¹⁾ /veterinarian authorised by the competent authority ⁽¹⁾ of (insert name of territory or third country) certify that:			
	Purpose/nature of journey attested by the owner:			
		II.1.	the attached declaration ⁽²⁾ by the owner or the natural person who has authorisation in writing from the owner to carry out the non-commercial movement of the animals on behalf of the owner, supported by evidence ⁽²⁾ , states that the animals described in Box I.28 will accompany the owner or the natural person who has authorisation in writing from the owner to carry out the non-commercial movement of the animals on behalf of the owner within not more than five days of his movement and are not subject to a movement that aims at their sale or a transfer of ownership, and during the non-commercial movement will remain under the responsibility of	
	⁽¹⁾ either		[the owner;]	
	⁽¹⁾ or		[the natural person who has authorisation in writing from the owner to carry out the non-commercial movement of the animals on behalf of the owner;]	
	⁽¹⁾ or		[the natural person designated by a carrier contracted by the owner to carry out the non-commercial movement of the animals on behalf of the owner;]	
	⁽¹⁾ either	II.2.	the animals described in Box I.28 are moved in a number of five or less;]	
	⁽¹⁾ or	II.2.	the animals described in Box I.28 are moved in a number of more than five, are more than six months old and are going to participate in competitions, exhibitions or sporting events or in training for those events, and the owner or the natural person referred to in point II.1 has provided evidence ⁽²⁾ that the animals are registered	
	⁽¹⁾ either		[to attend such event;]	
⁽¹⁾ or		[with an association organising such events;]		
Attestation of rabies vaccination and rabies antibody titration test:				
⁽¹⁾ either	III.3.	the animals described in Box I.28 are less than 12 weeks old and have not received an anti-rabies vaccination, or are between 12 and 18 weeks old and have received an anti-rabies vaccination, but 21 days at least have not elapsed since the completion of the primary vaccination against rabies carried out in accordance with the validity requirements set out in Annex III to Regulation (EU) No 576/2013 ⁽⁴⁾ , and		
	III.3.1	the territory or third country of provenance of the animals indicated in Box I.1 is listed in Annex II to Commission Implementing Regulation (EU) No 577/2013 and the Member State of destination indicated in Box I.5 has informed the public that it authorises the movement of such animals into its territory, and they are accompanied by		
⁽¹⁾ either	III.3.2	the attached declaration ⁽²⁾ of the owner or the natural person referred to in point II.1 stating that from birth until the time of the non-commercial movement the animals have had no contact with wild animals of species susceptible to rabies;]		
⁽¹⁾ or	III.3.2	their mother, on whom they still depend, and it can be established that the mother received before their birth an anti-rabies vaccination which complied with the validity requirements set out in Annex III to Regulation (EU) No 576/2013;]		
⁽¹⁾ or/and	III.3.	the animals described in Box I.28 were at least 12 weeks old at the time of vaccination against rabies and at least 21 days have elapsed since the completion of the primary anti-rabies vaccination ⁽⁴⁾ carried out in accordance with the validity requirements set out in Annex III to Regulation (EU) No 576/2013 and any subsequent revaccination was carried out within the period of validity of the preceding vaccination ⁽⁶⁾ ; and		
⁽¹⁾ either	III.3.1	the animals described in Box I.28 come from a territory or a third country listed in Annex II to Implementing Regulation (EU) No 577/2013, either directly, through a territory or a third country listed in Annex II to Implementing Regulation (EU) No 577/2013 or through a territory or a third country other than those listed in Annex II to Implementing Regulation (EU) No 577/2013 in accordance with point (c) of Article 12(1) of Regulation (EU) No 576/2013 ⁽⁷⁾ , and the details of the current anti-rabies vaccination are provided in the table below;]		
⁽¹⁾ or	III.3.1	the animals described in Box I.28 come from, or are scheduled to transit through, a territory or third country other than those listed in Annex II to Commission Implementing Regulation (EU) No 577/2013 and a rabies antibody titration test ⁽⁸⁾ , carried out on a blood sample taken by the veterinarian authorised by the competent authority on the date indicated in the table below not less than 30 days after the preceding vaccination and at least three months prior to the date of issue of this certificate, proved an antibody titre equal to or greater than 0,5 IU/ml and any subsequent revaccination was carried out within the period of validity of the preceding vaccination ⁽⁶⁾ , and the details of the current anti-rabies vaccination and the date of sampling for testing the immune response are provided in the table below;		

Non-commercial movement into a Member State from a territory or third country of dogs, cats or ferrets in accordance with Article 5(1) and (2) of Regulation (EU) No 576/2013

COUNTRY
