Big Tusk Herds 250x80cm (Tsavo soil/patina/Variegated copper/gold leaf/pure silver/acrylic on canvas)

“Big Tusk Herds” is created with a special technique using red soil from Tsavo National Park where the artist does her sketching of the African wildlife. Layered with the soil that the elephants walk on, acrylic, patina and pure silver dyed in greens, the artist creates a textured rendition of the Tsavo Savannah grasslands where the big tusk herds roam.
